

4.7 + 2.5 の筆算のしかた (小数のたし算)

4.7 + 2.5 の筆算のしかた (小数のたし算)

$$\begin{array}{r} 4.7 \\ + 2.5 \\ \hline \end{array}$$
The image shows a vertical addition problem. The numbers 4.7 and 2.5 are stacked on top of each other. A horizontal line is drawn below the numbers. Three vertical dashed lines are drawn: one on the left side of the numbers, one passing through the decimal points of both numbers, and one on the right side of the numbers. This setup is used to illustrate how to align the decimal points when adding.

① 小数点をそろえて書く

4.7 + 2.5 の筆算のしかた (小数のたし算)

$$\begin{array}{r} 4.7 \\ + 2.5 \\ \hline 7.2 \end{array}$$

② 整数と同じように計算する

4.7 + 2.5 の筆算のしかた (小数のたし算)

$$\begin{array}{r} 4.7 \\ + 2.5 \\ \hline 7.2 \end{array}$$

③ 上にそろえて、答えの
小数点をうつ
